**Check out my natives photos, most taken in my 33 garden beds, and personal notes on each, starting in mid-May on: <http://naperville.bookoo.com/lawn-and-garden> All postings are in Downers Grove & start with the word NATIVE. Additional plant details of most any Midwest native can be found at [www.prairiemoon.com](http://www.prairiemoon.com)**

My gardens are always open for self tours, or call if you'd like a guided one. I'm known, these past many years, as the "Pipevine Swallowtail Lady". I raise these rare beauties, along with Monarchs & Black Swallowtails, thruout the summer. Call to arrange viewing/learning sessions in my yard. Bring your children, grandchildren, and friends to interact with all the life amongst the natives! Senior citizens are especially welcome.
